

HANGIN' TIGHT INSTRUCTIONS

STEP 1. Move top and middle sliders to create a space ample enough to place over your head.

STEP 2. Place head through loop, with ear buds draping down back.

STEP 3. Pull ear buds up around head and insert into ears

STEP 4. Adjust sliders to create custom fit.

TIPS FOR USE AND CARE OF YOUR ZAGG AquaBuds™

WARNING: ZAGG AquaBuds are waterproof up to 3 meters. ZAGG does not provide waterproofing or water resistance for your device. ZAGG is not responsible for any water damage to any devices.

Grasp the ZAGG AquaBuds™ by the jack when removing the plug from your audio device. Do not remove the plug by pulling on the cord, which could damage your ZAGG AquaBuds.

Avoid putting strain on the plug and your device's audio jack if you wind the ZAGG AquaBuds cord around the device. Do not wind the cord tightly, which could damage your ZAGG AquaBuds.

Be sure to test the different ear bud caps to find the best fit. Optimal audio quality will come from the best fitting caps.

To create our Hangin' Tight style, adjust top and middle sliders to create an opening large enough to fit over your head. Place head through loop, with ear buds draped towards back. Pull ear buds up and place in ears. Move sliders up or down to create a secure fit and optimal comfort.

ZAGG does not recommend sharing your ear buds with others for hygienic reasons.

Congratulations, and thank you for purchasing ZAGG AquaBuds™. Get ready to fall in love with your gadget all over again, thanks to the amazing engineering and design of ZAGG AquaBuds™ – the newest member of the ZAGG Buds line.

ZAGG launched its flagship product in 2005 in the form of a unique film designed to protect US Military helicopter blades. This durable film was then applied to consumer mobile devices to make them scratchproof, marking the genesis of the ultra-tough invisibleSHIELD™.

ZAGG continues its mission to help people better interact with their mobile devices. The impressive ZAGG AquaBuds™ are innovative waterproof ear buds. They feature our patented, grounded breaking design of Hangin' Tight™ which allows a specific slider configuration designed to keep the buds around your neck, even when not in use. The premium length, tangle-free cord is covered with invisibleSHIELD™ material for unbeatable cord strength & durability.

ZAGG AquaBuds are not just another pair of ear buds. They are waterproof up to 3 meters and as tough as your nearest competitor. Their design is uniquely crafted for extreme use. From all weather running to winter sports to watersports, ZAGG AquaBuds are up to the challenge. The only question left: are you?

Our mission is to protect, personalize and enhance the mobile experience. Visit us at www.ZAGG.com for a comprehensive look at our extensive product line.
