

ZAGG® SPARQ™

Congratulations on your purchase of the ZAGGsparq™, another award-winning product from ZAGG®. We have considered every detail in redesigning the ZAGGsparq, and we are thrilled to introduce the new design to you.

DESIGN

The polycarbonate shell design allows the ZAGGsparq to maintain a glossy outer finish without showing fingerprints or scratches and a soft-touch rubber underside allows the charger to fit comfortably in your hand.

A button on the side of the ZAGGsparq lights up 5 LEDs to indicate the power level, and a convenient on/off switch prevents the battery from draining when not in use.

The convenient built-in prongs on the ZAGGsparq provide two major benefits other portable chargers don't offer: 1) No extra cables to deal with for charging the ZAGGsparq, and 2) Allows the ZAGGsparq to double as a wall charger.

SPECS

Battery type: Lithium polymer

LED charge levels:

5 LEDs = 80 to 100%

4 LEDs = 60 to 79%

3 LEDs = 40 to 59%

2 LEDs = 20 to 39%

1 LED = Less than 20%

ZAGGsparq 1220

Battery size: 1220 mAh
Current output: 5V at 1A
USB ports: 1

ZAGGsparq 3100

Battery size: 3100 mAh
Current output: 5V at 2.1A
USB ports: 1

ZAGGsparq 6000

Battery size: 6000 mAh
Current output: 5V at 2.1A
USB ports: 2

USE & COMPATIBILITY

To charge the ZAGGsparq, plug it into a standard wall outlet. To charge your device, plug the USB end into the ZAGGsparq and make sure the switch is in the ON position.

The ZAGGsparq is designed to charge virtually any device that draws a charge from USB. However, some USB charged devices may have proprietary charging specifications. The ZAGGsparq has been designed to charge smartphones and tablets including the iPhone® and iPad® as well as Android™ smartphones and tablets.

WARRANTY

Please visit www.ZAGG.com/register to register your ZAGGsparq. The ZAGGsparq is covered by a one-year warranty against any potential manufacturing defects. Your ZAGGsparq is automatically registered if you purchased it from www.ZAGG.com

CUSTOMER SERVICE

If you have any questions or concerns, please contact ZAGG's customer service via email at questions@zagg.com or by phone at 1-800-700-ZAGG (9244).

WARNINGS

- Do not store the ZAGGsparq near a high temperature environment, including intense sunlight, heat or fire.
- If the ZAGGsparq is ever damaged, including dents, punctures, tears, deformities or corrosion, due to any cause, discontinue use and contact ZAGG, or dispose of it in an appropriate manner at your local battery recycling center.
- Do not expose the ZAGGsparq to moisture or submerge it in liquid. Keep the ZAGGsparq dry at all times.
- Incorrect disposal of batteries, including the ZAGGsparq, is unlawful under state and federal environmental laws and regulations. Always take used batteries to your local battery-recycling center.
